SCHOOL OF NURSING

LOCATION

1439 South Michigan Avenue, Chicago 5. Less than a mile from the center of the city the hospital extends from Michigan Avenue through to Indiana Avenue, and from the upper windows we look out to the Stadium at Soldiers Field and Lake Michigan in the near distance. Chicago offers many cultural advantages, the Art Institute and Orchestra Hall and the Field Museum within easy walking distance. Several universities and colleges of note are located within the city and offer many cultural and educational advantages.

HISTORY

St. Luke's Hospital was founded in February, 1864, under the leadership of Dr. Clinton Locke, Rector of Grace Episcopal Church 1849-1895. Later that same year the Hospital became incorporated. In the words of Dr. Locke, "We found a small wooden house on State Street, near Eldridge Court, where by crowding we could put up seven beds. It was a pleasant little place with grass and flowers and one or two poplar trees." In 1871 the hospital moved about three blocks to Indiana Avenue and occupied a part of the present site. Through the efforts of the many friends of the hospital, still under the leadership of Dr. Locke, a well designed hospital was completed by 1891 with a capacity for 152 patients. An urgent need for a private patient pavilion developed. In 1908 the George Smith Memorial Building was erected on Michigan Avenue adding accommodations for 110 patients, and in 1925 a 21 story building was erected on Indiana Avenue, replacing in part the building of 1871. At present there are accommodations for 557 patients and 55 newborn babies. In 1949, the Sterling Morton Clinic Building was opened. There were 53,933 Clinic visits in 1952. In November of 1950, the Audiology and Speech Correction Service opened. This new department provides services for the evaluation of the functioning of the speech and hearing mechanism, and recommends and provides the necessary correction and training needed to rehabilitate those with speech and hearing difficulties.

The School of Nursing was established in 1885 as St. Luke's Hospital Training School for Nurses. The Blue Cross Society was organized in 1889—an organization of fellowship and inspiration for student nurses and graduates alike. 1893, the year of the Chicago World's Fair, in June, a group of 18 superintendents of nurses from prominent hospitals in the country met together at St. Luke's Hospital in the sitting room of Miss Katherine Lett, Superintendent of Nurses at St. Luke's, to form the Society of American Superintendents of Training Schools for Nurses; in 1912 the name was changed to National League of Nursing Education. In 1895 the Alumnae Association was organized and in

1896 the "blue cross" on the left sleeve, earned after the first year of schooling, became a part of the uniform. In 1898, through the will of Mrs. Edward S. Stickney, the Elizabeth Hammond Stickney Memorial Building was opened, "dedicated to the education of young women in the art of nursing." The building contained classrooms and living accommodations for students and faculty. In 1940 the name of the school was changed to St. Luke's Hospital School of Nursing, and in the same year the School of Nursing was included in the first list of Schools of Nursing Accredited by the National League of Nursing Education. May, 1943, saw the dedication of the Schweppe Memorial Residence, made possible largely through the leadership of Mr. Charles H. Schweppe (deceased) formerly President of the Board of Trustees. Substantial contributions were received from many friends of St. Luke's. The residence, which includes three additional floors added to the wing in 1944 through federal assistance, and the sixth floor added to the wing in 1947 through a bequest from Mrs. Emily Gary, houses the school as well as living facilities for 319 students and faculty. In 1949 the school became affiliated with the University of Illinois and now offers the 4½ year program leading to a Bachelor of Science degree in Nursing from the University of Illinois, as well as the diploma program.

ACCREDITATION

The School of Nursing is fully accredited by the National Nursing Accrediting Service and is approved by the Department of Registration and Education of the State of Illinois. This means that the school meets the high standards of the National Nursing Accreditation for curriculum, faculty preparation, facilities and clinical experience, and that graduates are eligible for licenses in Illinois and other states. The hospital is approved by the American Hospital Association, the American Medical Association and the American College of Surgeons. It is also approved by the American Medical Association for experience for both internes and residents.

PHILOSOPHY AND PURPOSE

The purpose of the school is: to maintain a standard of ideals commensurate with the needs of today and tomorrow worthy of the high ideals cherished by the founders; to accept well selected applicants, then to provide them with an educational program which will direct and stimulate their growth as individuals and professional nurses; to develop a clear understanding of the fundamental principles which underlie all good nursing; to give professional education to young women in the art of caring for the sick in the hospital and in the community with emphasis on the prevention of disease and an understanding of the social problems affecting health; to promote a professional attitude in relation to nursing education and to contribute to the ever changing needs of society.

THE PROGRAM OF ST. LUKE'S HOSPITAL SCHOOL OF NURSING IN AFFILIATION WITH THE UNIVERSITY OF ILLINOIS

The University of Illinois School of Nursing offers a program leading to the Bachelor of Science in Nursing, in cooperation with St. Luke's Hospital School of Nursing. The coordinator of the affiliation program is Miss Emily C. Cardew, Acting Director of the University of Illinois School of Nursing, whose office is located at the Chicago Professional Colleges, 912 South Wood Street, Chicago, Illinois. The office of the Assistant to the Coordinator who acts as an advisor to pre-nursing students, is located at the Chicago Undergraduate Division, Navy Pier, Chicago, Illinois.

Students interested in the degree program are advised to secure information from the Office of the Pre-nursing Advisor. Students planning to complete some of the requirements of the curriculum at a college or university other than the University of Illinois should plan their college programs with the assistance of the pre-nursing advisor of the University of Illinois School of Nursing.

Graduates of St. Luke's Hospital School of Nursing may become eligible for the continuation program for graduate nurses leading to the degree of Bachelor of Science in Nursing, provided that: they are eligible for admission to the University of Illinois College of Liberal Arts and Sciences; they have a c^+ average in theory and practice from the St. Luke's Hospital School of Nursing; they are recommended for admission by the faculty of St. Luke's Hospital School of Nursing. The amount of credit for the diploma program is based on the candidate's achievement on the National League for Nursing Graduate Nurse Test Battery.

Graduate nurses interested in the continuation program should arrange for a conference with Miss Katherine Sehl, advisor for graduate nurses, University of Illinois School of Nursing, 912 South Wood Street, Chicago, Illinois.

SUMMARY OF FEES AND EXPENSES

Estimated expenses for undergraduate students, exclusive of such variable items as clothing, railroad fare, and recreation, are given in the budgets below. These budgets cover two semesters for students who are residents of Illinois. For those who are not residents of Illinois the tuition is higher. *Note:* Since no room and board facilities are provided at the Chicago Undergraduate Division, the last three items listed in the budgets below do not apply to students enrolled at Navy Pier.

<i>Tuition and Fees</i>	<i>Minimum</i>	<i>Moderate</i>
Tuition and fees	\$120	\$120
Textbooks	35	45
Other school supplies.....	15	25
Room and board (which will range from \$60 to \$75 a month—here figured for nine months. No room		

and board facilities are provided at the Chicago Undergraduate Division.)	585	720
Laundry (mailed home)	20	20
Miscellaneous	45	90
Total Two Semesters	<u>\$820</u>	<u>\$1020</u>

For further details of the University of Illinois section of the program write to Miss Emily C. Cardew, Acting Director whose address is listed above.

REQUIREMENTS FOR ADMISSION TO THE DIPLOMA PROGRAM AND INFORMATION FOR DEGREE AND DIPLOMA STUDENTS

Applicants for admission to St. Luke's Hospital School of Nursing must obtain application forms to be filled out and returned to the Director of the school. Classes are admitted semiannually in September and in February. Each applicant must present credentials showing the completion of a four year course from a high school approved by the North Central Association of Colleges and Secondary Schools, or some comparable accrediting agency.

In the selection of students preference is given to those who show evidence of advanced education, high scholastic achievement and good cultural background.

Admission is limited to applicants between 17½ and 35 years of age, who can give evidence of good character and seriousness of purpose. The School considers it inadvisable as a general practice, to admit or retain married women in the student body, and reserves the right, after full consideration of each case, and after consultation with all parties concerned in the arrangement, to admit, readmit, retain or dismiss a student or applicant.

The advisable high school program for students in nursing constitutes the following courses:

- English—4 credits; Foreign Language—2 to 4 credits
- Science—2 to 4 credits, chemistry required
- Mathematics—2 credits; algebra and geometry
- Social Science (History, Civics, Government)—2 to 4 credits
- Electives—A maximum of 4 credits

Pre-nursing and Guidance Tests are required of all applicants.

Application for these tests are sent to all students whose application forms indicate that the student can meet the general entrance requirements of the school. These tests are only one of several means of ascertaining the qualifications of the candidate, the achievement of the applicant in these tests is a source of guidance for the faculty after the student has entered the school. The applicant is asked to meet the \$5.00 charge for these tests.

Health—requirements for all entering students:

The applicant is required to present a report of satisfactory health made by her family physician and a statement from her dentist testifying as to the satisfactory condition of her teeth.

GENERAL INFORMATION

EXPENSES

Registration Fee

Students who have been accepted by the School pay a registration fee of ten dollars (\$10.00) and cost of the Pharmacology Manual (\$2.25) in advance.

<i>Itemized List of Expenses to Students</i>	<i>1st term 1st year</i>	<i>2nd term 1st year</i>	<i>2nd year</i>	<i>3rd year</i>	<i>Grand Total</i>
Registration Fee	\$ 10.00	\$	\$	\$	\$ 10.00
Tuition	100.00	50.00	50.00	50.00	250.00
Health Fee	15.00	10.00	20.00	20.00	65.00
Student Activity Fee	5.00	5.00	10.00	10.00	30.00
Library Fee	5.00		5.00	5.00	15.00

Uniforms	0	0	0	0	
Graduation Fee				15.00	15.00
Achievement Tests	2.00		2.00	2.00	6.00
Totals	\$300.70	\$125.00	\$100.00	\$115.00 **\$140.00	\$640.70 **\$665.70

* Subject to change in cost of textbooks and equipment

** Tuition for Visiting Nurse Association Affiliation

A selected group of senior students with above average scholastic standing in both theory and practice and interest in public health nursing may be selected for eight weeks' experience with the Visiting Nurse Association of Chicago. This requires an additional fee of \$25.00 payable to the Visiting Nurse Association at time of affiliating.

Uniform

The School provides the complete uniform.

Personal Expenses

The student's personal expenses will depend upon her individual taste and financial means. Necessary personal expenses will include needed clothing such as shoes and stockings; cosmetics, amusements, local transportation, etc.

Cost of Nursing Education

A careful study of the cost of educating each student nurse at St. Luke's revealed that the cost is approximately \$6,000 for the three-year period. The studies also revealed that after giving credit for the fees paid by the student and after crediting an hourly rate the service rendered by the student that she contributes approximately \$4,000

toward the total cost. From the above it is apparent that the hospital must secure from some source funds to make up the difference.

Payment of Expenses

First term fees are to be paid on date of entrance. Second term fees and fees for second and third years will be billed in advance and are due on first day of term.

The fees are not refunded if a student withdraws from the school or is dismissed, and these fees are not refunded if a student is not retained in the school because of inferior class work or for either physical or social incapacity. One exception is made to the foregoing. If a student is asked to withdraw by the school during her first two weeks of schooling all fees are refunded excepting the registration fee and the first term's health fee, and a flat charge of \$4.00 per day for room and board is made. Adjustments, when possible, will be made on text books and incidentals. Amounts due at the beginning of the second and third years must be paid on or before the registration date as no student will be allowed to continue who is delinquent in payment of school fees.

Financial Aid

The Nursing Council makes funds available for students who meet the admission requirements of the school and need financial assistance. Trust funds and interested individuals also assist qualified students. Students in good standing may reapply for aid in the second term and in the second year. The *Schweppe Loan Fund*, established by Mr. Charles H. Schweppe, former President of the Board of Trustees, is available to senior students who need assistance.

STUDENT HEALTH PROGRAM

The health program is conducted under the direction of Dr. Fred E. Ball, Chairman of Nurses' Health Service and the Nurses' Health Supervisor who endeavor to teach the students principles of personal hygiene and their practical application in the promotion of health. Upon arrival each student is given a careful physical examination including an x-ray of the chest, orthopedic examination and dental examination.

Students are urged to report promptly any indisposition. When ill they are hospitalized in the Nurses' Infirmary and attended by members of the Medical Staff of St. Luke's Hospital. The School of Nursing, however, will not assume responsibility for medical care for illness due to conditions which existed prior to the student's entrance into the School. The hospital will supply hospitalization in case of illness, not to exceed three months during the entire three year course.

Health examinations are given each year, and recommendations for the welfare of each student are carefully followed.

Time lost because of illness must be made up, but all students are given a two weeks' illness leave at the end of the nursing education program.

VACATION AND ABSENCE

Students are allowed four weeks of vacation during the first, second, and third year, a total of 12 weeks during the three years (14 days in the third year for students completing their professional program in $2\frac{1}{2}$ years). Vacations are usually planned during the months of June, July, August, and September of each year. Students are not permitted an extension of vacation time, and will be considered on leave of absence if they do not return on scheduled time. They will then be reinstated in the school upon approval by the faculty. Neither are students permitted to be absent from the school for personal reasons, except in the case of extreme illness of members of their immediate families. Students are not granted leaves of absence to nurse relatives.

RELIGIOUS INFLUENCE

While St. Luke's Hospital was founded under the direction of leaders in the Episcopal Church, the School and Hospital are now non-sectarian. Grace Episcopal Church is located immediately to the south of the Indiana Avenue Building and is closely affiliated with the hospital. Preclinical students are required to attend chapel services one afternoon a week; all students are required as a part of their school program to attend chapel on Wednesday evening.

Special chapel services celebrate "Milestones" in student achievement:

Uniform Services.....	Recognition of the day the students receive their preclinical uniforms.
Capping	The completion of the Preclinical term.
Blue Crosses	At the successful completion of the first year.
Senior Linen	At the successful completion of the second year.
Baccalaureate	Spiritual dedication of the nursing career.
*Graduation	Presentation of diplomas and pins.
Going-Out	The individual students completion of education.

*Graduation Held at St. James Church.

THE RESIDENCE AND STUDENT ACTIVITIES

In 1943 the Laura and Charles Schweppe Memorial Residence was completed and now houses all students in the school. The first floor is planned to offer a colorful and homelike atmosphere for the full social program which the students enjoy. There are small beaux parlors, a party room, a room where buffet suppers and daily afternoon teas are served, and the large Ryerson Lounge. In this Lounge, with open fireplaces at either end, are held many class parties, monthly "All School Dances," Sunday Night Suppers, weekly chorus rehearsals, etc. On the ninth floor is an informal lounge and a sun deck, and on all floors of the residence lounges and kitchenettes for student use. Most of the students live in single rooms, although there are still a few triple rooms which were built during the war emergency. The building, as

well as the social program, have been carefully planned to give students an experience in gracious living.

The Co-operative Government Association was established in the Spring of 1940. Each student in the school has a responsibility and a privilege as a member of this organization. All classes in the school are represented on the Student Council which is the executive board of the association. The purpose of the association is to assist students, through actual experience, in achieving a constructive way of life based upon respect and consideration for the principles of good social living.

The "Yard" at the west of the residence affords a play place during the summer months, and a chance for the students to be outdoors in the sunshine when they have free time. An outdoor fireplace is a favorite rendezvous for wiener roasts and picnics; archery, volley ball, badminton and croquet are all available.

Through the constant interest and generosity of the Nursing Council, as well as through individual members, the social and resident life of the student nurses is made as attractive and comfortable as possible.

REQUIREMENTS FOR PROMOTION AND GRADUATION

The system of grading is a scale of A to F. A = 94-100; B = 88-93; C = 80-87; D = 75-79; F = Below 75, failing. In computing grade point average, weighted values are given to the grades as follows: A = 5 grade points; B = 4 grade points; C = 3 grade points; D = 2 grade points; F = 0. The student must maintain a C Average or 3.0 grade point average both in theory and in practice each term in order to remain in good standing.

Students must successfully pass all courses presented in the pre-clinical term, and also demonstrate their aptitude and personal fitness for nursing in order to be promoted to the second term. Students whose general average is low, who have demonstrated their ability and personal fitness for nursing, may, at the discretion of the faculty, be promoted to the second term on condition.

Upper class students must maintain a satisfactory average in both theory and nursing practice. Written examinations are given at the conclusion of each course, upon which a grade of 75% is required for credit. A student whose average for a course is between 70-75%, may at the discretion of the faculty be allowed to repeat the examination. A student whose average for the course is below 70% must repeat the course. No student may repeat a course more than once. A fee of five to ten dollars is charged for each repeat examination or course, the amount of the fee to be determined by the length of the course.

A student who fails in a course, or who fails to maintain a satisfactory average in theory, nursing practice, or both, will be placed on condition and must observe certain limitations to her social activities. The student is expected to remove herself from the conditioned basis by maintaining a satisfactory average in the following term. The faculty will make every effort to assist the student.

A student who fails more than one course in a term, or who remains on condition in either theory or nursing practice for more than one term, will have her record reviewed by the executive committee of the faculty. In general this will lead to dismissal from the school.

The faculty of the school of nursing reserves the right to cancel the admission of any student who seems to be unsuited for the nursing profession, and to require the withdrawal of any student when, in its judgment the interest of the school requires it.

AWARDS

In accordance with terms of the particular gifts, there are ten special awards offered to students upon graduation from St. Luke's Hospital School of Nursing. They are the following:

The Charles H. Schweppe Memorial Award is offered for the most outstanding student in psychiatric nursing.

The A. Watson Armour Award is given to one of the two most outstanding nurses in Medical and Surgical Nursing.

The Medical Staff Award is given to one of the two most outstanding nurses in Medical and Surgical Nursing.

The Mrs. Charles H. Morse Honor Award is offered annually to a student who ranks as the most outstanding nurse in theory and practice.

The Martha Hughitt McCullough Memorial Award is given annually to a student who demonstrates excellence in bedside nursing.

The Alumnæ Association Award in memory of Harriet Fulmer is awarded annually to the student with the highest scholastic standing.

The Mrs. John W. Gary Award from the Woman's Board is given to the most outstanding nurse in obstetrical nursing.

The Margaret McFadden Willing Memorial Award for outstanding citizenship.

The Woman's Board of St. Luke's Hospital Award is offered each year to a student showing outstanding ability as an operating room nurse.

The Woman's Board of St. Luke's Hospital Award is given annually to the most outstanding nurse in pediatric nursing.

GRADUATION AND AFTER

The diploma and pin of the school are granted to students who have successfully completed the required course in nursing. Commencement exercises are held at the close of the school year. St. Luke's Hospital offers first level positions to all students when they graduate from the School. A first position in her home hospital assures the young

graduate a security and professional poise and prepares her for desirable positions elsewhere. The opportunities for advancement are sooner attained because of the knowledge and understanding of the individual. The young graduate also assists her school by her contribution to a sound graduate nurse service.

In order to practice as a Registered Nurse, graduates are required to pass the examination given by the Department of Registration and Education of the State of Illinois or other states. This entitles the nurse to registration by reciprocity in other states.

All graduates of the School as soon as they are registered are urged to join, St. Luke's Hospital School of Nursing Alumnae Association and the American Nurses Association through the District in which they practice. They should also join the National League for Nursing, Inc. where they have the opportunity of participating with professional and lay members, in formulating and directing policies in the field of education or service in which they are practicing. This membership is attained through the Chicago League and includes both State and National membership. Membership in professional organizations is a "must" in order that each nurse may participate in forming, developing and maintaining the standards of her profession.

EDUCATIONAL AND CLINICAL FACILITIES

Two classrooms, three laboratories, the library and instructors' offices are located on the first floor of Schweppe House. The laboratories, chemical, physiological, and dietary, are provided with charts, models, microscopes, and other equipment necessary for demonstration purposes and student participation. The classrooms are equipped for visual education, and the use of educational sound films, slides, and charts is a frequent supplement to the lecture courses.

The library is attractively furnished and provides a collection of 2,076 professional books, 35 current professional magazines, as well as 1,348 books, magazines, and papers of current or literary interest. The resources of the medical library comprising 2,000 medical texts and monographs and 200 current medical journals are available through requisition.

The nursing arts laboratory is located in the hospital. This laboratory is planned to correspond to a typical hospital ward, and is equipped for the demonstration and student practice of all basic nursing procedures.

The clinical facilities consist of eleven very active medical and surgical nursing units, a dietary department where application of diet therapy is practiced, fourteen operating rooms in which about 12,000 operations are done a year, and an active service in obstetrics, pediatrics, neuro-psychiatry.

In addition, the Out-Patient Department located in the Sterling Morton Clinic Building is a component part of the clinical facilities. Clinics are conducted in medicine, surgery, obstetrics, pediatrics, orthopedics, gynecology, genito-urinary, neurology, ophthalmology, otology,

laryngology, rhinology, bronchology, dermatology and vascular diseases.

The clinical resources are also supplemented by an affiliation with the Municipal Contagious Disease Hospital in the city, as well as a public health affiliation with the Visiting Nurse Association of Chicago.

In 1952, there were 16,592 patients admitted to St. Luke's Hospital with a wide variety of diagnoses in every clinical field. And the clinical education program is planned so that it focuses on the diversified clinical areas which the care of these patients furnish.

THE BASIC PROGRAM IN NURSING

The length of the nursing program is three years, inclusive of 12 weeks of vacation and a 2 week illness leave allowance. Two groups of students are admitted to the school yearly.

The first term is a preclinical period, in which the biological, the physical, the medical, and the social sciences are studied. This group of courses is integrated with the elementary techniques in nursing, and when evidence of adequate theoretical knowledge and nursing skill is demonstrated, experience is given in the wards, under constant supervision.

The second term of the first year is devoted to classroom instruction and clinical experience in all phases of medical and surgical nursing, diet kitchen experience and practice in operating room procedures.

In the first and second terms of the second year, emphasis is placed upon the principles and practical experience of obstetrical, pediatric and psychiatric nursing.

During the two terms of the third year, all students receive additional classroom and clinical experience in communicable diseases through an affiliation with the Municipal Contagious Disease Hospital. Students receive clinical instruction and experience in Public Health Nursing in the Sterling Morton Clinic or, upon selection, by affiliation with the Visiting Nurse Association of Chicago. Advanced work in theory and practice in medical and surgical nursing is given to complete the third year.

A program of clinical instruction amplifies classroom instruction and helps the student to apply the actual knowledge learned in the classroom to the development of skills and attitudes necessary to good nursing care of patients. Clinical instruction is planned and carried out on each service by the Instructor-Supervisor, assisted by the assistant instructor and head nurses.

*Placement of four week vacation given each year.

‡Two weeks illness leave allowance is given at the finish of the three year program.

†Selected students are given this affiliation each year.

**Students in the combined program are given 32 weeks of clinical nursing experience in medical and surgical nursing including the specialties.

***Six months credit is given to students in combined program.

FRESHMAN STUDENTS IN THE SCIENCE LABORATORY

DESCRIPTION OF COURSES

BIOLOGICAL AND PHYSICAL SCIENCES

Anatomy

Lectures, laboratory work, and demonstrations are designed to give the student a fundamental knowledge of the structures and pertinent relationships between the structures comprising the anatomical scheme of the body. Microscopic demonstrations, animal dissection, museum preparations are shown in the laboratory. The course covers instruction on the skeletal, neuro-muscular, cardiovascular, respiratory, digestive, genito-urinary, and endocrine systems of the body. The course is designed as a basis for understanding the physiology of these systems as well as for a foundation for clinical nursing as a whole. First year, first term. (Lectures, 32 hours; laboratory, 24 hours.) Mrs. Kubicz and assistant.

Physiology

Lectures, laboratory work and demonstrations are planned to enable the student to understand the normal behavior and functions of the anatomical structures of the body as a basis for future comprehension of disease conditions. First year, first term. (Lectures, 36 hours; laboratory, 18 hours.) Mrs. Kubicz and assistant.

Microbiology

Lectures and laboratory work designed to give the students fundamental understanding of pathogenic organisms, their growth and destruction. Special emphasis is placed on public health aspects, modes of infection, prevention, also diagnosis and treatment of infectious diseases from the standpoint of bacteriological tests, vaccines and serums. First year, first term. (Lectures, 36 hours, laboratory and demonstrations, 24 hours.) Mrs. Quetsch and assistant.

Chemistry

This course, consisting of lectures and laboratory work represents a careful selection of content from general inorganic, organic and physiological chemistry, and the application of the principles of chemistry to nursing. First year, first term. (Lectures, 36 hours, laboratory, 24 hours.) Mr. Sackheim and assistant.

SOCIAL SCIENCES

History of Nursing I

This course offers an introduction to the field of nursing, emphasizing the development of nursing history in relation to movements in general history, our heritage from the past, and the development of ethical and philosophical principles in nursing. First year, first term. (Lectures, 15 hours.) Miss Roberts.

Professional Adjustments I

This course provides an introduction to the personal and professional problems of nursing. The principles of individual and group relationships and of working out professional problems are emphasized. The student's responsibility for her personal hygiene and health is discussed. First year, first term. (Lectures and discussions, 15 hours.) Miss McConnell, Miss Roberts, Mrs. Bell, Miss Molbo, and special lecturers.

Professional Adjustments II (Includes History of Nursing II).

This course traces the development of nursing as a profession with emphasis on the influence of economic and social factors in the development of nursing as a

basis for understanding current professional problems. The student is introduced to the vocational opportunities in nursing, the professional nursing organizations, and the responsibilities of the individual nurse, as a professional woman to herself, society, and the professional group. (Lectures and discussions 45 hours.) Miss McConnell, Miss Roberts and special lecturers.

Social Psychology

This course is concerned with the nature of interpersonal relationships and with man's adjustment to life in a group. Special attention is paid to the problems of nurse-patient relationship and the nurses' function in it. First year, first term. (Lectures and discussion, 15 hours.) Mr. Mauksch.

Sociology

This course deals with the nature of society and why its members are so much alike and yet so different. Against this background, the student nurse is helped to better understand the patient and herself. Special attention is also given to problems of modern living such as housing, inter-group relations, the family and urban life. Second year, first term. (Lectures, discussion, and field trip, 30 hours.) Mr. Mauksch.

Nursing Aspects of Community Living

A course which deals with the history of Public Health Nursing, problems and trends in connection with official and non-official agencies and the vocational aspects of this field. Special emphasis is placed upon the recognition of health problems in the family and the community, the use of community resources in meeting the needs of the individual, and the teaching of health in the family. Third year, first term. (Lectures and field trips, 30 hours.) Miss Yeomans.

Psychology

This course deals with the principles of study and of learning processes and the general principles of behavior, emphasizing the application of these principles to the larger social problems of the entire nursing field. First year, first term. (Lectures, 30 hours.) Miss Moughton.

NURSING AND ALLIED ARTS

Nursing Arts

By means of lecture-demonstrations, supervised laboratory and ward assignments, the basic scientific principles underlying general nursing activities are presented to the student. Emphasis is placed upon individualization of nursing care, including social and hygienic aspects which may be applied by the student for both her own and her patients' welfare. The course includes Pharmacology I (30 hours), and an introduction to Occupational Therapy, Physical Therapy, the writing of Nursing Care Studies, and the organization of nursing care. First year, first term. (Lectures, 135 hours; laboratory, 82 hours; ward practice, 120 hours.) Mrs. Blackburn, assistants, and special lecturers.

Pharmacology II (Materia Medica and Therapeutics)

This course is planned to teach the origin, action, dosage, method of administration, symptoms of overdosage, and clinical uses of the various substances used to maintain and regain health. It is taught by lecture, discussion, and presentation of case studies. First year, second term. (Lectures, 30 hours.) Mrs. Richardson.

Introduction to Medical Science

A series of lectures dealing with gross pathology, clinical pathology, and descriptions of certain diagnostic procedures. First year, first term. (Lectures and demonstrations, 30 hours.) Mrs. Kubicz and special lecturers.

Introduction to Medical and Surgical Nursing

An introduction to the principles of nursing care in medical and surgical diseases, emphasizing the nursing responsibilities in observation, treatment and assisting in diagnostic procedures. First year, first term. (Lectures and demonstrations, 20 hours.) Miss Van de Steeg and Mrs. Richardson.

Nutrition I

This course, consisting of lectures and laboratory work on the preparation of normal, balanced diets for adults, is based on the principles of normal nutrition and the application of these principles to individuals and family groups. First year, first term. (Lectures, 15 hours; laboratory, 30 hours.) Mrs. Castellanos.

Nutrition II

A study of therapeutic diets, the underlying principles and theories of modern methods in the treatment of disease, such as diabetes, nephritis, etc. First year, second term. (Lectures, 15 hours.) Mrs. Castellanos.

Principles of Medicine

A course of lectures which presents the etiology, pathology, symptomatology treatment and prognosis of the common medical conditions. First year, second term. (Lectures, 30 hours.) Dr. Meredith, Dr. Roskelly, Dr. Hedblom.

Principles of Medical Nursing

A course of lectures and demonstrations dealing with the principles of nursing care required by patients with medical conditions. The social and public health aspects, and the nurses' role in prevention, are emphasized. First year, second term. (Lectures and demonstrations, 30 hours.) Miss Zeeman.

Principles of Surgery

(a) A course of lectures and discussions in surgical diseases dealing with the pathology, disturbed physiology and the predisposing causes of the diseases treated by surgery, and the principles of anesthesia. (Lectures, 24 hours.) Dr. Jensen, Dr. Diffenbaugh, Dr. Searles.

(b) A course dealing with orthopedic surgery and fractures. (Lectures, 10 hours.) Dr. Norcross, Dr. Lambert, Dr. Heck.

(c) A course of lectures dealing with gynecological conditions, the physiological aspects, pelvic infections, benign and malignant tumors, operative procedures and the care of preoperative and postoperative patients. (Lectures, 12 hours.) Dr. Edwards and Dr. Beebe.

(d) A course of lectures and demonstrations on diseases and traumatic conditions of the central nervous system. (Lectures, 5 hours.) Special lecturer.

(e) A course of lectures and demonstrations on the diseases of the genito-urinary tract, their diagnosis, treatment and nursing care. (Lectures, 6 hours.) Dr. Murray, Dr. Graff. First year, second term.

Principles of Surgical Nursing

(a) Classes and demonstrations emphasizing the nursing care, prevention and treatment of surgical diseases. (Lectures and discussions, 15 hours.) Miss Van de Steeg.

(b) The principles and practice of orthopedic nursing. (Lectures and demonstrations, 15 hours.) Miss Miller.

(c) The principles of gynecological nursing. (Lectures and demonstrations, 5 hours.) Miss Van de Steeg.

(d) The principles of urological nursing. (Lectures and demonstrations, 6 hours.) Miss Miller.

(e) The principles and practice of neurosurgical nursing. (Lectures and demonstrations, 5 hours.) Miss Miller. First year, second term.

Principles of Operating Room Technique

A course of lectures and demonstrations dealing with the underlying principles in the conduct of an operating room, personnel, equipment, procedure. A practical course to acquire the knowledge and skill necessary for surgical and medical asepsis. Second year, first term. (Lectures and demonstrations, 15 hours.) Miss Ante.

Diseases of Ear, Nose and Throat

A course of lectures emphasizing the anatomy and physiology of the ear, nose and throat, the diseases of these organs, and the subsequent treatment and nursing care. Second year, first term. (Lectures, 12 hours.) Dr. Theobald, Miss Myers, and special lecturers.

Diseases of the Eye

A course of lectures emphasizing the anatomy and physiology of the eye, methods of examination, diseases of the eye, surgery of the eye, treatment and nursing care in these conditions. Second year, first term. (Lectures, 12 hours.) Dr. Clark and Miss Myers.

Emergency Nursing

A course of lectures, demonstrations and laboratory practice dealing with the underlying principles of rendering first aid. The American Red Cross certificate in First Aid is awarded at the completion of the course. Second year, second term. (Lectures and laboratory, 20 hours.) Dr. Witkowski and Miss Miller.

Senior Course

An advanced course in medicine and surgery designed to integrate all the clinical courses, to provide a review of some of the more difficult aspects of clinical nursing, and to provide an orientation to the responsibilities of the senior nurse including an introduction to the principles of administration. Third year, second term. (Lectures, 30 hours.) Special lecturers and Miss Roberts.

Dermatology and Syphilology

A course of lectures illustrated by the use of lantern slides dealing with the more important skin diseases and venereal diseases, with special emphasis upon the social and public health aspects. Second year, second term. (Lectures and demonstrations, 15 hours.) Dr. Grauer, Dr. Smith, and Miss Yeomans.

Principles of Obstetrics

A course of lectures dealing with the physiological and pathological aspects of pregnancy, prenatal care of the mother, parturition, puerperium and the management of normal and abnormal labor. Second year, first term. (Lectures, 25 hours.) Dr. Finola.

Principles of Obstetrical Nursing

A course of lectures and demonstrations dealing with the nurse's part in the program for complete maternity care, emphasizing her responsibilities in regard to teaching, procedures and techniques in the care of mother and infant. Second year, first term. (Lectures, 25 hours.) Miss Johnson.

Principles of Communicable Diseases

An introductory course dealing with the etiology, symptomatology, treatment, and prognosis of the common communicable diseases. Second year, first term. (Lectures, 9 hours.) Dr. Stepan.

Principles of Pediatrics

A course of lectures dealing with the underlying principles of pediatrics including common disorders of infancy and childhood, infant feeding, psychological development and behavior problems. Second year, first term. (Lectures, 20 hours.) Dr. Biggs and associates.

Principles of Pediatric Nursing

A course of lectures and demonstrations dealing with the principles and practice of nursing adapted to the care of the child in sickness and in health. Second year, first term. (Lectures and demonstrations, 36 hours.) Miss Moss.

Principles of Neurology

A course of lectures dealing with the anatomy and physiology of the nervous system and the causes, symptoms, complications, prognosis and treatment of the diseases affecting it. Second year, second term. (Lectures, 15 hours.) Dr. Garvin.

Principles of Neurologic Nursing

A course of lectures dealing with the nursing care and management of the neurological patient. Second year, second term. (Lectures, 5 hours.) Miss Moughton.

Principles of Psychiatry

A course of lectures dealing with the structure of personality and of abnormal personality manifestations, psychoneuroses, psychoses, mental mechanism, mental hygiene. Second year, second term. (Lectures, 14 hours.) Dr. R. G. McMillan and Dr. Crouch.

Principles of Psychiatric Nursing

A course of lectures and demonstrations in the principles and practice of nursing as applied to the care of the mentally ill patients emphasizing the role of the nurse in preventive work. Second year, second term. (Lectures, 16 hours.) Miss Moughton.

AFFILIATIONS AND SELECTIVES

Principles of Communicable Diseases and Communicable Disease Nursing

A comprehensive study of highly contagious diseases, including etiology, symptoms, possible complications and sequela, mode of transmission, with the emphasis on prevention and early recognition. Third year, second term. (Lectures, 38 hours.) Miss Idabelle Noll and assistants.

Principles of Public Health Nursing III

A course of lectures and discussions of the principles of public health nursing as it relates to Visiting Nursing. Third year, second or third term. (Lectures and discussions, 40 hours.) Miss Mary Westphal and associates, Visiting Nurse Association of Chicago.

Diploma, St. Luke's Hospital School of Nursing, Chicago 1921.
- ELFRIEDE MIDDLEGGE, *Head Nurse, Employees Health Service, Out Patient Department, 1952-*.
Diploma, St. Luke's Hospital School of Nursing, Chicago 1926.
- MARION STEELE MILLER, *Head Nurse, Smith Five Obstetrics, 1942-*.
Western Michigan University 1937-38; Diploma, St. Luke's Hospital School of Nursing, Chicago 1941.
- DORIS M. MILLS, *Head Nurse, Operating Rooms, 1952-*.
Diploma, St. Luke's Hospital School of Nursing, Chicago 1950.
- MARY ANN MOELLER, *Head Nurse, Operating Rooms, 1951-*.
Diploma, St. Luke's Hospital School of Nursing, Chicago 1950.
- MALINDA MOENCH, *Head Nurse, Operating Rooms, 1944-*.
Diploma, Lutheran Hospital School of Nursing, Hampton, Iowa 1922; Postgraduate Certificate in Operating Room Technic, Michael Reese Hospital 1924.
- LUCILLE SCHENK NARVA, *Head Nurse, Non-segregated Medical and Surgical Women's Private and Semi-Private Floor, 1942-*.
Diploma, St. Luke's Hospital School of Nursing, Chicago 1930; Part time University of Chicago 1932-33.
- ELSIE E. NIKKILA., *Head Nurse, Main Nine Nursery, 1953-*.
Concordia College, Moorhead, Minnesota, 1946-47; Diploma, St. Luke's Hospital School of Nursing, 1951.
- ARTIS LONG PAYNE, *Head Nurse, Operating Rooms, 1951-*.
Diploma, St. Luke's Hospital School of Nursing, Chicago 1948.
- MARJORIE REID, *Head Nurse, Surgical Supply Department, 1946-*.
Diploma, St. Luke's Hospital School of Nursing, Chicago 1918.
- DELOROS SAILOR, *Head Nurse, Pediatric Nursery, 1950-*.
Gary Junior College, Gary, Indiana 1945-46; Diploma, St. Luke's Hospital School of Nursing, Chicago 1949; Course in Premature Nursing, Michael Reese Hospital, Chicago 1951.
- MARY ELLEN SCOTT, *Head Nurse, Non-segregated Medical and Surgical Floor, 1952-*.
Diploma, St. Luke's Hospital School of Nursing, Chicago 1950.

- CECELIA SEHL, *Head Nurse, Obstetrical Department, 1952-*.
Diploma, St. Joseph Hospital School of Nursing, Chicago 1939; B.S., DePaul University, Chicago 1942; Post Graduate Course in Obstetrics, Chicago Lying-In Hospital 1943.
- DOROTHY SPORTOLARI, *Head Nurse, Men's Non-segregated Medical and Surgical Private and Semi-Private Floor, 1951-*.
Diploma, King's County Hospital School of Nursing, Brooklyn, New York, 1943.
- MURIEL STEWART, *Relief Head Nurse, 1952-*.
Diploma, St. Luke's Hospital School of Nursing 1949; B.S. Lake Forest College 1949; University of Chicago Autumn Quarter 1950; University of Chicago 1952-53.
- PALMALEA R. TAYLOR, *Head Nurse, Operating Rooms, 1949-*.
Diploma, St. Luke's Hospital School of Nursing, Chicago, 1948; Northwestern University 1948-50.
- EDITH URATA, *Head Nurse, Operating Rooms, 1950-*.
Diploma, Kuakini General Hospital School of Nursing, T.H., 1948.
- EDITH WELLINGTON, *Night Head Nurse, Obstetrical Department, 1951-*.
Diploma, Mercy Hospital, Grayling, Michigan 1922; Ph.B., Loyola University 1934. Courses at University of Chicago and DePaul University, Chicago. Supervisor, University Hospital, Chicago, 1949-51. Obstetrical Nurse, St. Joseph Hospital, Chicago, 1951.
- MARION WELLNITZ, *Head Nurse, Operating Rooms, 1951-*.
Diploma, St. Luke's Hospital School of Nursing, Chicago, 1949.
- RUTH WILLIAMS, *Head Nurse, Operating Rooms, 1951-*.
Diploma, St. Luke's Hospital School of Nursing, Chicago, 1948; B.S. in Nursing Education, Indiana University 1950.

SPECIAL LECTURERS

- ANDREWS, ALBERT H., JR. *Lecturer in Laryngology*
N.U. Medical School, 1933. Intern St. Luke's Hospital 1932-33. Associate Attending Bronchologist, Children's Memorial Hospital; Associate Clinical Professor of Broncho-esophagology, University of Illinois, College of Medicine; Attending Bronchologist, St. Luke's Hospital. Certified by the American Board of Otolaryngology. Fellow A.M.A. Member American Broncho-esophagological Society, American College of Chest Physicians.
- BAUER, FREDERICK C., JR. *Lecturer in Pathology*
Harvard Medical School (M.D.) 1943; Intern and Resident in Pathology, St. Luke's Hospital, Chicago; Seymour Coman Fellow in Pathology 1947 and Ph.D. in Pathology 1949, University of Chicago. Associate Attending Pathologist, St. Luke's Hospital, Chicago. Certified by The American Board of Pathology in Pathologic Anatomy and Clinical Pathology.
- BEEBE, ROBERT A. *Lecturer in Gynecology*
University of Illinois College of Medicine, 1939. Intern Ravenswood Hospital, Chicago, 1939-40. Intern Chicago Maternity Center, 1940; Intern Lying-In Hospital, Chicago, 1941-42; Resident St. Luke's Hospital, Chicago, 1942-45; Instructor of Gynecology and Obstetrics, Northwestern University Medical School; Gynecologist to Out Patient Department, St. Luke's Hospital, Chicago; Assistant Attending Gynecologist and Obstetrician, St. Luke's Hospital, Chicago. Diplomate of American Board of Obstetricians and Gynecologists.
- BIGGS, ALFRED D. *Lecturer in Pediatrics*
Rush Medical College, 1922. Intern St. Luke's Hospital, 1922-23. Borland Fellowship at St. Luke's Hospital, Chicago, 1923-24. Licentiate of the American Board of Pediatrics, 1938. Licentiate National Board of Medical Examiners. Associate Professor of Pediatrics, Northwestern University Medical School. Consulting Pediatrician for St. Francis Hospital, Blue Island, Illinois. Attending Pediatrician, St. Luke's Hospital, Chicago. Fellow A.M.A. Member American Academy of Pediatrics.
- BOLAND, SHIRLEY ALICE *Lecturer in Occupational Therapy*
B.A.E., School of the Art Institute of Chicago 1944; University of Illinois, Occupational Therapy 1945. Occupational Therapist at U.S. General Hospital, Camp Carson, Colorado 1945-46; Veterans Hospital, Livermore, California 1946; Veterans Hospital, Downey, Illinois 1947; Brooke General Hospital, Fort Sam Houston, Texas 1947-48; St. Luke's Hospital, Chicago 1949-52; Fulbright Fellowship, Meyer Hospital, Florence, Italy 1952; Director, Occupational Therapy Department, St. Luke's Hospital 1952-.

BOSHES, BENJAMIN

Lecturer in Psychiatry

Northwestern University Medical School, 1930. Intern Cook County Hospital, 1930-32. Professor and Head of Department of Nervous and Mental Diseases, Northwestern University Medical School. Assistant Attending Neuropsychiatrist, St. Luke's Hospital and Passavant Memorial Hospitals; Lt. Col. M.C. Army, U.S. Senior Consultant in Neurology, V.A. Hospital, Hines, Illinois. Certified by American Board of Psychiatry and Neurology. Member of Central Neuro-Psych. Association, Association for Research in Nervous and Mental Diseases.

CLARK, JAMES WILSON

Lecturer in Ophthalmology

Northwestern University Medical School, 1931. Intern St. Luke's Hospital, 1931-32. Attending Ophthalmologist, St. Luke's Hospital. Assistant Clinical Professor of Ophthalmology University of Illinois Medical School. Fellow A.M.A. Certified American Board of Ophthalmology. American Academy Ophthalmology and Otolaryngology.

CROUCH, RICHARD L.

Lecturer in Psychiatry

St. Louis University School of Medicine, 1937. Associate Professor of Anatomy, University of Missouri, 1937-46. U.S. Army Medical Corps 1942-46. Professor of Anatomy, University of Missouri, 1946-47. General Internship, Wesley Memorial Hospital, Chicago, 1947-48. Resident Physician in Neurology and Psychiatry, Veterans Administration Hospital, Hines, Illinois, 1948-51. Fellow in Psychiatry, Mental Health Center, Illinois Department of Public Welfare, 1949-. Clinical Assistant, Department of Nervous and Mental Diseases, Northwestern University Medical School, 1951-52. Instructor, Department of Nervous and Mental Diseases, Northwestern University Medical School, 1952-.

DE TAKATS, GEZA

Special Lecturer in Advanced Medicine and Surgery

University of Budapest, 1915. Master of Surgery, University of Budapest, 1918. Intern University Clinics, Budapest 1915-18. Clinical Professor of Surgery, University of Illinois Medical School. Civilian Consultant Great Lakes Hospital, Great Lakes, Illinois. Chairman, Department of Surgery, St. Luke's Hospital. Senior Consultant in Vascular Surgery, Veterans Hospital, Hines, Illinois. Fellow A.M.A. Member Central Society for Clinical Research, American Heart Association. American Diabetes Association. President, Society for Vascular Surgery. Vice-President, International Society for Angiology.

DE YOUNG, VERNON R.

Lecturer in Pediatrics

University of Chicago School of Medicine, 1931. Intern Indianapolis Methodist Hospital, 1931. Resident in Department of Pediatrics, University of Chicago, 1932-34. Courtesy Pediatric Staff, Lying-In Hospital, University of Chicago. Certified by the American Board of Pediatrics, 1938. Fellow American Academy of Pediatrics. Dispensary St. Luke's Hospital.

DIFFENBAUGH, WILLIS G.

Lecturer in Surgical Diseases

Northwestern University Medical School 1934. Interne St. Luke's Hospital 1934-35. Resident St. Luke's Hospital 1935-37. Assistant Professor of Surgery, University of Illinois College of Medicine. Associate Attending Surgeon, St. Luke's Hospital, Chicago. Certified by the American Board of Surgery. Member of Chicago Surgical Society. F.A.C.S. A.M.A.

DOUGHERTY, CLIFFORD L.

Lecturer in Ear, Nose and Throat Diseases

Rush Med. Col., 1924. Intern Presbyterian Hosp., 1924-26, and Resident 1926-27. Assoc. Consultant, Ear, Nose and Throat, Municipal Tuberculosis Sanitarium, 1928-30. Asst. Professor of Otolaryngology, Rush Med. Col., 1935-41. Assistant Professor of Otology and Laryngology, (Rush) U. of I. Col. of Med., 1941-44. Attending Otolaryngorhinologist, St. Luke's Hosp. Certified by Amer. Bd. of Otolaryngology, 1930. Fellow A. M. A. Member G. L. Fellow American Academy Otolaryngology. Member Chicago Otolaryngological Society.

EDWARDS, EUGENE A.

Lecturer in Gynecology

U. of I. Col. of Med., 1924. Intern St. Luke's Hospital, Chicago and Boston Lying-In Hospital, 1924-26. Attending Gynecologist, St. Luke's Hospital; Asso-

ciate Professor of Gynecology and Obstetrics, N. U. Med. School. Diplomate American Board of Gynecology and Obstetrics. Member Central Association of Obstetricians and Gynecologists.

FINOLA, GEORGE C.

Lecturer in Obstetrics

U. of I. Col. of Med., 1927. Intern St. Luke's Hospital, Chicago, and Boston Lying-In Hospital, Boston, Mass., 1927-30. Attending Gynecologist and Obstetrician St. Luke's Hospital. Instructor in Obstetrics and Gynecology, N. U. Med. School. Certified by the American Board of Obstetrics and Gynecology. Fellow A. M. A.

FLARITY, NEIL F.

Special Lecturer in Advanced Medicine and Surgery

University of Illinois College of Medicine 1946. Intern St. Luke's Hospital 1946-47. Resident Mason Clinic, Seattle, Washington 1949-51. Resident University of Illinois Research and Educational Hospital 1951-52. Resident Municipal Contagious Disease Hospital, Chicago, 1952. Dispensary, St. Luke's Hospital.

GARVIN, JOHN S.

Lecturer in Psychiatry

University of Illinois College of Medicine 1944. Interne Illinois Research and Educational Hospitals 1944-45. Resident Neurologist, I.N.I. 1945-46. Assistant in Neurology, University of Illinois 1945-46. Captain, Army U.S. 1946-48. Resident Neurologist and Research Associate in Electorencephalography 1948-49. Clinical Clerk in Neurology (postgraduate study) National Hospital for Nervous and Mental Diseases, Queen Square, London 1949-50. Assistant in Neuropathology, University of Illinois 1950. Instructor in Neurology, University of Illinois. Jr. Attending Neurologist I.N.I. Dispensary Neurologist, St. Luke's Hospital. Certified in Neurology, American Board of Psychiatry and Neurology. Central Society E.E.G. Am. Acad. Neurol.

GERTY, FRANCIS J.

Lecturer in Psychiatry

M.D. Loyola University School of Medicine, 1921. Intern Cook County Psychopathic Hospital, 1921. Medical Director, Cook County Psychopathic Hospital 1922-41. Attending Neurologist, Cook County Hospital, 1932-41. Professor and Head of Division of Neuropsychiatry, Loyola University School of Medicine, 1930-41. Professor of Psychiatry and Head of Department, University of Illinois College of Medicine, 1941-. Director Psychiatric Division, Illinois Neuropsychiatric Institute, 1941-. Attending Specialist in Neuropsychiatry, Edward Hines Jr. Hospital, U.S.V.B. 1940-. Attending Neuropsychiatrist, St. Luke's Hospital, Chicago, Certified by the American Board of Psychiatry and Neurology. Member of Council, American Psychiatric Association 1952-. Member Advisory Council, National Mental Health Institute of U.S.P.H.S. Fellow A.M.A. Member of Central Neuropsychiatric Association. Member American Psychopathological Association.

GOTTSTEIN, WERNER

Lecturer in Pediatrics
